Scale for displaying a quarter of a second for short-time measurement

Case made of stainless steel, bead-blasted

Shock-proof acrylic glass

Solid back

Waterproof and pressure-resistant up to 10 bar

Low pressure resistant to low pressure

Warranty statement for watches.

Bead-blasted stainless-steel case, shock-proof acrylic glass and solid back: three features of our 356 PILOT Classic AS E and 356 PILOT Classic W anniversary models build a bridge to a watch that established this series 25 years ago. 1998 saw the launch of the 356 PILOT model with exactly this equipment.

Unlike the timepiece in the beginning, the 356 PILOT Classic AS E and 356 PILOT Classic W are equipped with a special complication. This refers to the bicompax arrangement of the black, electroplated matt-silk counters. As an appreciative expression of 25 steadfast years, we have enhanced the dials at six o'clock with the unmistakable lettering "FLIEGER KLASSIK", which is also a novelty in this series. The different designs of the dials also define the identity and individuality of both watches. For the 356 PILOT Classic AS E model, we have chosen an exciting, matt-silk colour gradient from anthracite to black. The hands for hours, minutes and stopwatch seconds are the perfect match: they are rhodium-plated, bead-blasted compatible to the case and lined with luminous ivory-coloured paint. A shade that is consistently reflected in the ten digits. The small seconds and 30-minute stopwatch are also rhodium-plated and create a balanced coherence with their matt-silk anthracite-coloured design.

The matt-silk white dial of the 356 PILOT Classic W model embodies timeless elegance paired with clarity. Perfectly combined with this, the hands for the hour, minute and stopwatch second are shiny black and, like the twelve indices, filled with bright luminous colour.

Each watch is powered by a high-precision mechanical movement with an increased power reserve of over 56 hours.

It entirely depends on your personal taste which watch you choose. Either way, you can look forward to a beautiful timepiece.
