

## 756 II

The Duochronograph.

Page 1 / 2  
May 2024

- Limited edition to 75 units
- Case made of stainless steel, bead-blasted
- Case made with TEGIMENT Technology and therefore especially scratch-resistant
- Nickel-free case back without TEGIMENT Technology
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Magnetic Field Protection up to 80,000 A/m
- Functionally reliable from -45°C up to +80°C
- Sapphire crystal glass
- Pressure-resistant to 20 bar
- Low pressure resistant

The 756 II and 757 II editions feature an exclusive, stylish design and come in a limited range of each 75 units. They possess a fine-matt finish, bead-blasted case made from stainless steel combined with a warm grey dial on which the two ivory-coloured counters accentuate the striking face of a duochronograph. The chronograph hands are presented in a dark red colour, ensuring a harmonious overall design. The contrast between the clear and neat hour indices and the 3, 6, 9 and 12 hour counters ensures optimal readability, while use of the luminous white coating on the indices and 3 and 9 hour counters ensures that they can also be identified in the dark.

The range of technologies in the watches includes Magnetic Field Protection up to 80,000 A/m, Ar-Dehumidifying Technology for increased functional reliability and freedom from fogging, Temperature Resistance Technology for reliable function in temperatures of -45°C to +80°C, and a highly scratchproof case based on TEGIMENT Technology. The watches are also resistant to low pressure and pressure-resistant to 20 bar.

## Technical details

### Mechanical Movement

- Valjoux 7750
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Anti-magnetic as per DIN 8309

### Case

- Case made of stainless steel, bead-blasted
- Sapphire crystal glass in front, anti-reflective on both sides
- Case back screw-fastened, nickel-free
- Crown screwable
- Meet the technical requirements for waterproofness, as set out in standard DIN 8310
- Pressure-resistant up to 20 bar
- Low pressure resistant

### Functions

- Hours, minutes
- Date display
- Chronograph

### SINN Technologies

- TEGIMENT Technology, therefore especially scratch-resistant
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Temperature resistance technology, therefore functionally reliable at temperatures from -45°C up to +80°C
- Magnetic Field Protection up to 80,000 A/m
- Push-pieces with D3-System

### Dimensions and Weight

- Case diameter: 40 mm
- Band lug width: 20 mm
- Case thickness: 14 mm
- Weight without strap: 91 gramme

### Warranty

- 3 years
