May 2024

The technical-sporty watch featuring TEGIMENT.

- Limited edition to 300 units
- Case made of stainless steel, polished
- Case made with TEGIMENT Technology and therefore especially scratch-resistant
- Sapphire crystal glass
- Nickel-free case back without TEGIMENT Technology
- Functionally reliable from -40 °C up to +80°C
- Pressure-resistant to 10 bar (100 m water depth)
- Low pressure resistant

Is it the dynamic square-shaped design? Or the polished, satinised stainless steel case which has been specially hardened with TEGIMENT Technology, effectively protecting its surface from scratches? Or is it the fact that our technical-sporty watch 902 is produced in a limited edition of just 300 pieces that makes it so appealing? We believe it is the combination of all these details which make our watch so unique.

The fact that the instrument watch 902 is being received so enthusiastically comes as no surprise: after all, we have developed this watch specially for people with a particular penchant for technical-sporty designs. The clear and consistent technical realisation means that the watch can withstand pressures of up to 10 bar (= 100 m water depth) and is also high-altitude resistant. And the sapphire crystal glass with anti-reflective coating on both sides means that the dial is always clearly visible.

Technical details

Mechanical Movement

- ETA 2824-2
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Shock resistant as per DIN ISO 1413
- Anti-magnetic as per DIN 8309

Case

- Case made of stainless steel, polished
- Sapphire crystal glass in front, anti-reflective on both sides
- Case back screw-fastened, nickel-free
- Meet the technical requirements for waterproofness, as set out in standard DIN 8310
- Pressure-resistant up to 10 bar (= 100 m water depth)
- Low pressure resistant

Functions

- Hours, minutes, seconds
- Date display

SINN Technologies

- TEGIMENT Technology, therefore especially scratch-resistant
- Temperature resistance technology, therefore functionally reliable at temperatures from -40 °C up to +80°C

Dimensions and Weight

- Case measurements: 34.4 x 32.8 mm
- Band lug width: Special
- Case thickness: 12 mm
- Weight without strap: 60 gramme

Dial and Hands

- Black electroplated dial
- Indices coated with luminescent colour
- Hour and minute hand with luminescent colour
- Second hand coated with daylight luminous paint

Warranty

- 2 years
