

U200 W

Page 1 / 2
May 2024

The Exclusive Special Edition in White.

- Special edition available for a limited time only, **order by 31 July 2011**
- Completely made from high-strength seawater-resistant German submarine steel
- Case and bezel made with Black Hard Coating on a TEGIMENT Technology basis
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Functionally reliable from -45°C up to $+80^{\circ}\text{C}$
- Tested based on European diving equipment standards and certified by Germanischer Lloyd, Hamburg
- Captive diver's bezel with minute ratcheting
- Crown at 4 o'clock to prevent pressure on the back of the hand
- Sapphire crystal glass
- Pressure-resistant to 2,000 m diving depth (200 bar), certified by Germanischer Lloyd Hamburg
- Low pressure resistant

Clean, distinctive, highly functional. These are the characteristics of the U200 W diving watch. Its most outstanding characteristic: the white dial with luminous, black indices and hands. White silicone strap with a black folding clasp. With the technical accoutrements you've come to expect. Such as a non-detachable diver's bezel, a case made of German submarine steel for optimal resistance to seawater and with Ar-Dehumidifying Technology. A sure thing, under any conditions. This diving watch has been tested based on the European standards for diving equipment and is pressure-resistant to a depth of 2000 meters. All this has been certified by Germanischer Lloyd, Hamburg.

Technical details

Mechanical Movement

- ETA 2824-2
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Shock resistant as per DIN ISO 1413
- Anti-magnetic as per DIN 8309

Case

- Case made of German submarine steel, black
- Sapphire crystal glass in front, anti-reflective on both sides
- Case back screw-fastened
- Crown screwable
- Meet the technical requirements for waterproofness, as set out in standard DIN 8310
- Pressure-resistant to 2,000 m diving depth (= 200 bar), certified by Germanischer Lloyd, Hamburg
- Low pressure resistant
- According to the technical demands for the diver's norm DIN 8306
- Tested based on European diving equipment standards EN 250/EN14143 and certified by Germanischer Lloyd in Hamburg

Functions

- Hours, minutes, seconds
- Diver's bezel with minute ratcheting and luminous key mark
- Date display

SINN Technologies

- Black Hard Coating on a TEGIMENT Technology basis
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Temperature Resistance Technology, therefore functionally reliable at temperatures from -45°C up to +80°C
- Captive diver's bezel

Dimensions and Weight

- Case diameter: 37 mm
- Band lug width: 18 mm
- Case thickness: 14,5 mm
- Weight without strap: 73 gramme

Dial and Hands

- Dial in matte white
- Indices coated with luminescent colour
- Hour, minute and second hand coated with luminescent colour

Warranty

- 3 years
