

1746 Heimat

Elegance with a relief dial.

- Case made of stainless steel, polished
- Diameter of case: 42 mm
- Relief dial
- Sapphire crystal glass
- Transparent case back made of sapphire crystal glass
- Water-resistant and pressure-resistant to 10 bar
- Low pressure resistant

The first Frankfurt Financial District Watch is a testament to our strong roots in Frankfurt am Main and the special relationship we have with this location. This close affiliation is also reflected in our decision to base our new headquarters in the city once again.

We see the 1746 Heimat as an homage to this city. The extremely fine rhodiumcoated relief dial is inspired by the traditional diamond pattern of Frankfurt's popular cider glasses, also known as Gerippte. The three-dimensional diamond pattern creates an incredibly vibrant interplay of light and shade on the cider glasses.

A close look at the relief on the dial of the 1746 Heimat reveals this watch to be just as vibrant and three-dimensional, with a wide range of surface characteristics from polished to matt silk. This effect is a result of the electroforming technique used in the production process. This method allows complex three-dimensional surface structures to be achieved with a high degree of precision. The relief dial is coated with rhodium, a precious metal similar to platinum, which gives the dial an exquisite silver-white shine.

And of course, we have also made this watch pressure-resistant up to 10 bar and resistant to low pressure.

Technical details

May 2024

Mechanical Movement

- *The information on the mechanical movement corresponds to the current production situation in Frankfurt am Main. Due to technical changes, it may happen in individual cases that stock items of our sales partners deviate from this information. ([further Information](#))*

- SW 300-1
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Anti-magnetic as per DIN 8309

Case

- Case made of stainless steel, polished
- Sapphire crystal glass in front, anti-reflective on both sides
- Transparent case back made of sapphire crystal glass, anti-reflective on the interior
- Case back screw-fastened
- Meet the technical requirements for water-resistance, as set out in standard DIN 8310
- Water-resistant and pressure-resistant to 10 bar
- Low pressure resistant

Functions

- Hours
- Minutes

SINN Technologies

- Crown with D3-System

Dimensions and Weight

- Case diameter: 42 mm
- Band lug width: 22 mm
- Case thickness: 9.4 mm
- Weight without strap: 65 gramme

Dial and Hands

- Hands and relief dial are finished with a brilliant layer of silver-white rhodium

Warranty

- 2 years
