- Case made of high-strength titanium, polished
- Copper electroplated dial
- Appliqués meticulously attached by hand
- Sapphire crystal glass
- Pressure-resistant to 10 bar
- Low pressure resistant

Our ladies' watches represent a successful synthesis of esthetics and suitability for everyday use, sophisticated design and contemporary technology. The 243 Ti series is a perfect example of this. The overall appearance of the individual models is intentionally unostentatious and presents a classically elegant, feminine image at first glance. The rhodanized appliqués meticulously attached by hand also complement this delicate look. The rectangular dial tastefully recalls classic ideals and conveys the joy of and focus on clean geometric forms. Three attractive dials are available for you to match the watch perfectly to your own personal style. Technologically, all three models meet the usual high quality standards of SINN. They are resistant to high and low pressure. The case is made of polished high-strength titanium. The resulting warm, gleaming, metallic color adapts outstandingly to other jewelry. Moreover, titanium is lighter than stainless steel and offers pleasant wearability and outstanding skin compatibility.

Technical details
