May 2024

The elegant ladies' watch with decorative bezel of zirconium oxide.

- **This watch is already sold out in direct sales.**
- Decorative bezel of zirconium oxide
- Case made of high-strength titanium, polished
- Black electroplated dial, finished with a sunburst decoration
- Sapphire crystal glass
- Appliqués meticulously attached by hand
- Waterproof and pressure-resistant to 10 bar
- Low pressure resistant

It is the details which make the 243 Ti Z S an elegant ladies' watch with its very own classic charm. The case is polished high-strength titanium which ensures that the watch is gentle to the skin and pleasant to wear. The black dial features a sunburst effect. The rhodium-plated appliqués have been set by hand and the high-grade sapphire crystal glass has an anti-reflective coating on both sides.

An exclusive feature of the 243 Ti Z S is the polished decorative bezel which we make from zirconium oxide, a special high-performance ceramic. The material is non-metallic and inorganic. The manufacturing process – in which a fine powder is turned into the finished ceramic – is highly complex. In the initial sintering process the powder particles are bonded together by high temperature. This process is supplemented by “hot isostatic compression” in which maximum structural density is achieved under high pressure. The results are impressive. The decorative ring radiates a deep, warm and rich lustre. And it is very hard-wearing: it is fracture-proof and is highly scratch-resistant. The 243 Ti Z S successfully blends the very latest material processing technology with traditional watchmaking craftsmanship.

Technical details

Mechanical Movement

- ETA 2671
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Anti-magnetic as per DIN 8309

Case

- Case made of high-strength titanium, polished
- Decorative bezel of zirconium oxide
- Sapphire crystal glass in front, anti-reflective on both sides
- Case back screw-fastened
- Meet the technical requirements for waterproofness, as set out in standard DIN 8310
- Waterproof and pressure-resistant to 10 bar
- Low pressure resistant

Functions

- Hours, minutes, seconds
- Date display

Dimensions and Weight

- Case measurements: 22.5 x 29.5 mm
- Band lug width: 14 mm
- Case thickness: 9 mm
- Weight without strap: 20 gramme

Dial and Hands

- Black electroplated dial, with sunburst decoration
- Appliqués meticulously attached by hand
- Appliqués coated with luminescent colour
- Hour and minute hand coated with luminescent colour

Warranty

- 2 years
