- Sapphire crystal glass
- Transparent case back made of sapphire crystal glass
- Pressure-resistant to 10 bar (= 100 m water depth)
- Low pressure resistant

The Frankfurt Financial District Watch 6000 model, created in 1999, was the first of the Frankfurt Financial District Watches. It embodied the conscious decision to integrate the highly regarded suitability of our pilot watches for everyday use in a model with classic design. The watch was well received by a wide range of customers — not least because it also paid homage to the city of Frankfurt, home of a major stock exchange, and the city in which our company is located. The inscription 'Frankfurt am Main', applied for the first time to the dial of a SINN watch, is an expression of this deep connection.

In celebration of the tenth anniversary of this watch series, we present another Frankfurt Financial District Watch. The model 6000 Anniversary II with its brown galvanized dial and rhodanized appliques has a surprisingly new yet still traditional look. To mark the occasion, this model also uses DIAPAL Technology to ensure greater escapement reliability in the movement. A five year warranty is included. An alligator leather strap and solid bracelet in an exclusive wooden case provide the perfect finish for this high-quality anniversary watch.

Technical details

Page 2 / 2
May 2024
