The Frankfurt Financial District Watch.

- Case made of stainless steel, polished
- Display of two time zones on a 12-hour basis
- Sapphire crystal glass
- Transparent case back made of sapphire crystal glass
- Pressure-resistant to 10 bar (= 100 m water depth)
- Low pressure resistant

This watch is a fascinating piece of jewelry with a look of timeless beauty. It is an attractive addition to the popular series of Frankfurt Financial District Watches. With the smaller diameter of 34 mm, a height of 11 mm and the resulting reduction in weight, it is very comfortable to wear. Men's shirt cuffs glide easily without friction or resistance over the sapphire crystal glass, facilitating a quick glance at the dial. The combination of all of these features make the Frankfurt Financial District Watch 6030 an interesting timepiece for women who enjoy the fine points of technical sophistication.

The chronograph with its two time zones is shock-resistant, anti-magnetic, water-resistant, pressure-resistant to 10 bar and low pressure resistant. The case is made of polished stainless steel. Inside the watch, you'll find an absolutely top-quality movement with a hairspring made of Nivarox 1, a Glucydur balance and an Nivachoc shock absorber. The distinctive effect of the gleaming black sunburst dial is achieved via a sophisticated galvanic process. The appliqués and hands are coated with special white, long-lasting luminous paint.

The sapphire crystal glass back permits a fascinating view of the movement with its rhodanized components. The bridges have been given a sunburst cut, while the rotor is adorned with Geneva waves. It also bears the "Bull and Bear" engraving as well as the logo "Frankfurt / Main". Blued and polished screws form the perfect complement to the elegant overall appearance.

Technical details
