The pilot's watch with the captive rotary bezel.

- · Case made of stainless steel, bead-blasted
- Magnetic Field Protection up to 80,000 A / m
- · Captive pilot's bezel with minute ratcheting
- · Sapphire crystal glass
- · Nickel-free case back
- · Pressure-resistant to 20 bar
- Low pressure resistant

Based on the 656 model range, and designed as a functional instrument watch in the tradition of our cockpit navigation clocks, this pilot's watch also features a pilot's bezel which permits its wearer to measure or check set time intervals.

This is a decisive criterion particularly in aviation — reason enough for us to give this important function a superior design.

The stainless steel pilot's bezel with minute ratcheting can be rotated on both sides and features a special mechanical system developed by Sinn to protect against loss.

The labelling is silver on an inset, black anodised aluminium ring to ensure optimal scale readability. A luminous triangle serves as the 0 / 60 minute mark.
