

757 III

The Duochronograph.

- Limited edition to 75 units
- Case made of stainless steel, satinized
- Case made with TEGIMENT Technology and therefore especially scratch-resistant
- Nickel-free case back without TEGIMENT Technology
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Magnetic Field Protection up to 80,000 A/m
- Functionally reliable from -45°C up to +80°C
- Sapphire crystal glass
- Captive pilot's bezel with minute ratcheting
- Pressure-resistant to 20 bar
- Low pressure resistant

The 756 and 757 series feature a striking design, contrasting displays and clear readability.

We have developed a special, new colour scheme for the 756 III and 757 III editions, which are limited to each 75 units. High-contrast, matt colours with a glossy, fine-satinised, stainless-steel case and sapphire crystal. The white hour indices and the 3, 6, 9 and 12 hour counters against the dark-blue dial ensure optimal readability. The chronograph hands and minutes stand out in orange, while warm-grey counters accentuate the striking face of these duochronographs.

The range of technologies in the watches includes Magnetic Field Protection up to 80,000 A/m, Ar-Dehumidifying Technology for increased functional reliability and freedom from fogging, Temperature Resistance Technology for reliable function in temperatures of -45°C to +80°C, and a highly scratchproof case based on TEGIMENT Technology. The watches are also resistant to low pressure and pressure-resistant to 20 bar.

Technical details

Mechanical Movement

- Valjoux 7750
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Anti-magnetic as per DIN 8309

Case

- Case made of stainless steel, satinized
- Sapphire crystal glass in front, anti-reflective on both sides
- Case back screw-fastened, nickel-free
- Crown screwable
- Meet the technical requirements for waterproofness, as set out in standard DIN 8310
- Pressure-resistant up to 20 bar
- Low pressure resistant

Functions

- Hours, minutes
- Date display
- Chronograph
- Pilot's bezel with minute ratcheting and luminous key mark

SINN Technologies

- TEGIMENT Technology, therefore especially scratch-resistant
- Captive bezel
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Temperature resistance technology, therefore functionally reliable at temperatures from -45°C up to +80°C
- Magnetic Field Protection up to 80,000 A/m
- Push-pieces with D3-System

Dimensions and Weight

- Case diameter: 43 mm
- Band lug width: 22 mm
- Case thickness: 15 mm
- Weight without strap: 111 gramme

Warranty

- 3 years
