

UX Sansibar

The mission timer for special operation forces.

- Limited edition of just 500
- Hand-made Sterling silver appliqués in the shape of crossed swords, the logo of the Sansibar on the island of Sylt
- Completely made of high-strength seawater-resistant German submarine steel
- Tested based on European diving equipment standards and certified by Germanischer Lloyd, Hamburg
- Thanks HYDRO Technology for perfect readability even under water and freedom from reflection at any angle and completely free from fogging
- Bezel with TEGIMENT Technology and therefore especially scratch-resistant
- Functionally reliable from $-20\text{ }^{\circ}\text{C}$ up to $+60\text{ }^{\circ}\text{C}$
- High-precision quartz movement, temperature compensated
- Captive diver's bezel with minute ratcheting
- Crown at 4 o'clock to prevent pressure on the back of the hand
- Mission timer design for optimal readability
- Sapphire crystal glass
- The movement is pressure-resistant to 500 bar (approximately 5,000m diving depth), of the case to 1200 bar (approximately 12,000m diving depth), certified by Germanischer Lloyd Hamburg
- Low pressure resistant

The Sansibar by Sinn. The latest piece of standard equipment for the famous Sansibar is also a favorite of the German GSG9 special forces unit, thanks to its precision and reliability.

SINN developed the UX GSG9 diving watch, made of German submarine steel, especially for the marine unit of the special forces. Now, in close collaboration, SINN has created a diving watch that is every bit as good as its inspiration. Branded with the logo of the Sansibar – the crossed swords of massive Sterling silver on the dial. Also popular among landlubbers.

Technical details

Quartz Movement

- ETA 955.652
- High-precision quartz movement
- Temperature compensated
- 7 bearing jewels
- Seconds stop function
- Shock resistant as per DIN ISO 1413
- Anti-magnetic as per DIN 8309

Case

- Case made of German submarine steel, bead-blasted
- Sapphire crystal glass in front, anti-reflective on both sides
- Case back screw-fastened
- Crown screwable
- Meet the technical requirements for waterproofness, as set out in standard DIN 8310
- Pressure-resistant of the movement up to 5,000 m diving depth (= 500 bar) and of the case up to 12,000 m diving depth (1,200 bar), certified by Germanischer Lloyd Hamburg
- According to the technical demands for the diving norm DIN 8306
- Tested based on European diving equipment standards EN 250 / EN14143 and certified by Germanischer Lloyd Hamburg
- Low pressure resistant

Functions

- Hours, minutes, seconds
- Date display
- Diver's bezel with minute ratcheting and luminous key mark

SINN Technologies

- HYDRO Technology for perfect readability even under water and freedom from reflection at any angle and completely free from fogging
- Bezel with TEGIMENT Technology, therefore especially scratch-resistant
- Captive bezel

Dimensions and Weight

- Case diameter: 44 mm
- Band lug width: 22 mm
- Case thickness: 13.3 mm
- Weight without strap: 105 gramme

Dial and Hands

- Matte black dial with Sterling silver appliqués in the shape of the Sansibar logo
- Indices coated with luminescent colour
- Hour, minute and second hand coated with luminescent colour
- Mission timer design for optimal readability

Warranty

- 3 years
