

356 Sa PILOT III

The traditional chronograph with sapphire crystal glass.

- Case made of stainless steel, satinized
- Display of date and day of the week
- Silver electroplated guilloché dial
- Sapphire crystal glass
- Transparent case back made of sapphire crystal glass
- Water-resistant and pressure-resistant to 10 bar
- Low pressure resistant

At a classic 38.5 mm in diameter, the case boasts a fine satinized finish and exudes outstanding, sophisticated functionality.

Particularly noteworthy is not only the guilloché, silver electroplated dial, but also the high-domed sapphire crystal glass, which is ground out and carefully polished using a complex process involving an approximately 5 mm solid blank with five different curvature radii. This enhances the classic look of the glass. The anti-reflective coating on both sides facilitates accurate reading of the distinctively designed dial even under extreme lighting conditions.

The transparent case back made of sapphire glass offers a fascinating insight into the fine mechanical movement, which has been decorated with an exquisite finish and blued screws.

Technical details

Mechanical Movement

- *The information on the mechanical movement corresponds to the current production situation in Frankfurt am Main. Due to technical changes, it may happen in individual cases that stock items of our sales partners deviate from this information. ([further information](#))*

- SW 500
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Anti-magnetic as per DIN 8309

Case

- Case made of stainless steel, satinized
- Sapphire crystal glass in front, anti-reflective on both sides
- Transparent case back made of sapphire crystal glass, anti-reflective on the interior
- Case back screw-fastened
- Crown screwable
- Meet the technical requirements for water-resistance, as set out in standard DIN 8310
- Water-resistant and pressure-resistant to 10 bar
- Low pressure resistant

Functions

- Hours, minutes, subsidiary seconds
- Date display
- Day of the week display
- Chronograph

Dimensions and Weight

- Case diameter: 38,5 mm
- Band lug width: 20 mm
- Case thickness: 15 mm
- Weight without strap: 75 gramme

Dial and Hands

- Silver electroplated guilloché dial
- Indices coated with luminescent colour
- Hour, minute and stopwatch second hand coated with luminescent colour

Warranty

- 2 years
