

358 Sa PILOT B E

The traditional chronograph with a dark-blue dial and ivory-coloured coating.

- Case made of stainless steel, satinized
- Dark-blue electroplated dial with sunburst decoration
- Ivory-coloured coating on the indices, hands and numerals
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Sapphire crystal glass
- Transparent case back made of sapphire crystal glass
- Water-resistant and pressure-resistant up to 10 bar
- Low pressure resistant

In keeping with the design of traditional instrumental chronographs, our 358 Sa PILOT B E model captivates with clarity, functionality and elegance – and also a dark-blue dial that has been finished with a sunburst decoration.

The distinctive colouring and striking combination of dark-blue dial and ivory-coloured coating on the indices, hands and numerals also catches the eye. This vintage-style colour scheme makes for an eye-catching contrast on this watch.

In addition to being 42 mm in diameter, the highly curved crystal made of sapphire crystal in a satinized stainless-steel case characterises the overall appearance. Sapphire crystal has also been used for the transparent case back, which enables you to take an exciting glimpse into the delicate work of the mechanical movement.

In terms of technology, Ar-Dehumidifying Technology enhances greater functional reliability and freedom from fogging. Additionally equipped with a date and day of the week display, the 358 Sa PILOT B E model is resistant to low pressure, water-resistant and pressure-resistant up to 10 bar.

Technical details

Mechanical Movement

• *The information on the mechanical movement corresponds to the current production situation in Frankfurt am Main. Due to technical changes, it may happen in individual cases that stock items of our sales partners deviate from this information. ([further information](#))*

- SW500
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Anti-magnetic as per DIN 8309

Case

- Case made of stainless steel, satinized
- Sapphire crystal glass in front, anti-reflective on both sides
- Transparent case back made of sapphire crystal glass, anti-reflective on the interior
- Case back screw-fastened
- Crown screwable
- Meet the technical requirements for water-resistance, as set out in standard DIN 8310
- Water-resistant and pressure-resistant to 10 bar
- Low pressure resistant

Functions

- Hours, minutes, subsidiary seconds
- Date display
- Day of the week display
- Chronograph

SINN Technologies

- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging

Dimensions and Weight

- Case diameter: 42 mm
- Band lug width: 22 mm
- Case thickness: 15 mm
- Weight without strap: 86 gramme

Dial and Hands

- Dark-blue electroplated dial, with sunburst decoration
- Numbers and indices coated with luminescent colour
- Hour, minute and stopwatch second hand coated with luminescent colour

Warranty

- 3 years
