

434 St GG B

The stylish ladies' watch with [Q] Technology and blue dial.

- Decorative bezel made of 18-carat yellow gold
- Classic, elegant stainless-steel case
- Electroplated blue dial, with sunburst decoration
- Shielding of the electromagnetic pulses emitted by the quartz movement
- Appliqués, meticulously attached by hand
- High-precision quartz movement, temperature-stabilised
- Sapphire crystal glass
- Water-resistant and pressure-resistant to 10 bar
- Resistant to low pressure

Flawless functionality and a safe feeling with it on your wrist: our 434 St GG B model offers both.

For example, we have minimised the electromagnetic radiation of the movement for this watch, as confirmed by the [Q] symbol on the dial. Additionally, it features a high-precision, temperature-stabilised quartz movement. It is still resistant to low pressure, water-resistant and can withstand pressures of up to 10 bar.

You can also discover the extraordinary character – resulting from the combination of timeless aesthetics and the utmost in precision – of the 434 St GG B model. The blue dial is an optical feature that has also been finished with a sunburst decoration. This dial is set in an elegant stainless-steel case with crystal made of sapphire crystal glass.

A whole new level of exclusivity is evoked through the featuring a fine, decorative bezel of 18-carat yellow gold. The appliqués, meticulously attached by hand, are subtle in their elegance in showing the hours and give the impression of a traditional ladies' watch.

Technical details
