- Resistant to low pressure

Our 434 St Mother-of-Pearl W ladies' watch is a real piece of jewellery, perfect in combination with many items of clothing. This distinctly feminine and elegant timepiece is an extraordinary blend of purity and timelessness.

A design feature of this watch is created by the hours with rhodium-plated Roman numerals, which have been meticulously attached by hand. In combination with the shimmering white mother-of-pearl dial, this gives the ever-so-subtle impression of a classically beautiful ladies' watch.

Our high technical standards also meet today's expectations of a ladies' watch. The [Q] symbol on the dial confirms the minimised electromagnetic radiation emitted by the high-precision, temperature-stabilised quartz movement.
