- Transparent case back made of sapphire crystal glass
- Exquisitely finished movement with its own rotor engraving
- Pressure-resistant to 10 bar
- Low pressure resistant
- The watch comes in a case, with a seamless Alcantara strap and solid bracelet

Seventy years of the Frankfurter Allgemeine Zeitung: We are pleased to be celebrating such an important anniversary with a watch that emphasises the international significance of this well-known German newspaper. The 6060 F.A.Z. anniversary edition is characterised by three time zones that can be read simultaneously on a 12- and 24-hour basis. This makes it perfect for people who are active in the interconnected world of economics and finance. To fit the occasion, we have limited the 6060 F.A.Z. to 70 pieces.

If you examine the details of this special edition more closely, its deep blue, matt-silk dial, set in a polished stainless-steel case, will immediately catch your eye. It is embellished with attached appliqués that are coated with luminous paint, just like the hour and minute hands. The crystal on the front is made of sapphire crystal with an anti-reflective coating on both sides. The fine, exquisitely decorated movement with rotor engraving can be observed through the transparent case back made of sapphire crystal glass, with anti-reflective coating on the interior. The year dates 1949 and 2019 are visible on the rotor, together with the limited-edition number and the well-known F.A.Z. signet of the proverbial clever mind ('Kluger Kopf').

The 6060 F.A.Z. is anti-magnetic, water-resistant, pressure-resistant up to 10 bar and resistant to low pressure. This makes it a reliable companion for both everyday wearing as well as for special occasions.

Technical details
