With its electroplated black dial, rhodium-plated appliqués and the three time zones on 12-hour basis, the 6090 is an ideal addition to the series of Frankfurt Financial District Watches. A special feature of this watch is the large date at 12 o'clock. The date is set in a rhodium-plated frame which gives it an intensive silvery outline to make this already enlarged display stand out even more.

The small dial incorporated at 6 o'clock allows users to read off the second time zone. The third time zone can be read off on the ratcheting inner ring which can be set using the crown at 10 o'clock. In homage to the stock exchange city of Frankfurt am Main, this Frankfurt Financial District Watch features an exquisitely decorated movement with "Bull and Bear" rotorgravure.
