Our ladies' watches are a perfect synthesis of aesthetics and functionality, of sophisticated design and state-of-the-art technology. This is evidenced once again in the Model 243 Ti M.

This watch exhibits an elegantly understated design, and its traditional, feminine appearance is apparent at first glance. The rhodanized appliqués, delicately applied by hand, are an appealing complement to the overall exquisite impression. The rectangular dial, a stylish expression of the classic ideal of beauty, exudes a spirit of joy in its clear geometrical form.

In terms of technology, the 243 Ti M fulfills the high standards of quality one expects of a SINN timepiece. It is resistant to high and low pressure, and the case is made of polished high-strength titanium. The warm, shiny metal finish makes it a perfect accompaniment to other jewelry. Moreover, titanium is lighter than stainless steel, so the watch is comfortable to wear and does not irritate the skin.

Technical details
