- **This watch is already sold out in direct sales.**
- Case made of stainless steel, bead-blasted
- Case made with TEGIMENT Technology and therefore especially scratch-resistant
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Magnetic Field Protection up to 100mT (=80,000 A/m)
- Functionally reliable from -45 °C up to +80°C
- Second time zone on a 24-hour basis
- Captive key operation bezel with minute ratcheting
- Crown on the left side of the case to prevent pressure on the back of the hand
- Sapphire crystal glass
- Nickel-free case back without TEGIMENT Technology
- Mission timer design for optimal readability
- Waterproof and pressure-resistant to 20 bar
- Low pressure resistant

The Mission Timer (EZM) 7 with its colour-coded bezel is easy to operate, making it child's play for people using breathing protection apparatus to set and read off the relevant durations – from CSA to LPA. The captive bezel can even be set when wearing gloves – like on our diving watches. We have designed the EZM 7 for use in the most difficult conditions – it is especially resilient to the penetration of water and dust, to scratches, changes of temperature and the influence of magnetic forces. And the sapphire crystal glass with anti-reflective coating on both sides and luminous indices ensures optimum readability by day or night. Ideal for heavy-duty use by the fire brigade or rescue services.
