

Certificate

This certification confirms that the watches listed below have passed the type test in compliance with the Technical Standard for Pilot's Watches (TESTAF) version 01 (2012):

Manufacturer:	Sinn
Model of watch:	EZM 10 TESTAF
Serial number range:	950.1000 to 950.1999
Strap model designations:	leather strap silicone strap solid bracelet

The certification is issued in compliance with section 3.1.1 of the TESTAF for flights using

Visual flight rules	<input checked="" type="checkbox"/>
Instrument flight rules	<input checked="" type="checkbox"/>

And in compliance with section 3.2.2 of the TESTAF standard
for the temperature range from -15° C to +55° C.

The compatibility declaration of the manufacturer and/or supplier indicating compliance with the type test of section 3.2.9 of the TESTAF has been submitted to the testing institute.

The validity of this certificate for the individual watches in the above serial number range is conditional upon the manufacturer's assurance that all watches it place on the market fulfil the requirements of the individual tests (carried out by the manufacturer) in compliance with the following section of the TESTAF:

3.1.5	Accuracy
3.1.6	Power reserve
3.2.7	Water resistance

This assurance, including the place, date and signature of an authorised staff member of the manufacturer, has been submitted to the testing institute.

Fulfilment of the TESTAF requirements confirms that the watches listed above are suitable for professional use as pilot's watches. For continued use careful observance of the service intervals recommended by the manufacturer, regular checks of the accuracy, power reserve and water resistance are recommended, as are visual and functional inspections.

Aachen, the 14 March 2013

<Prof. Dr.-Ing. Frank Janser>
