- Ar-Dehumidifying Technology, enhances functional reliability and freedom from fogging
- Sapphire crystal
- Transparent case back made of sapphire crystal
- Waterproof and pressure-resistant up to 20 bar
- Low pressure resistant

The 103 is more closely connected to our company than just about any other series. After all, it was these timepieces that acquainted pilots, in particular, with the name Sinn Spezialuhren once the company was founded. The first model was developed in the mid-1960s, at that time equipped with acrylic glass and hand-wound movement. These watches can still be found in the range today, underlining their timeless design and huge popularity with many watch lovers. We've also continuously expanded the series, adding, for example, the latest SINN technologies and other features.

Classic in every sense of the word, this pilot chronograph is the perfect celebration of our company's 60th anniversary – in the form of a special edition limited to 600 pieces. The 103 Classic 12 lives up to its reputation as a classic timepiece, but also boasts a modern interpretation, as demonstrated, for example, by the bezel insert made from ceramic – a material which appears for the first time on the 103 and is characterised by its outstanding hardness and the resulting exceptional scratch resistance. Another visual feature is the captive bezel itself, which features a twelve-hour scale to display a second time zone. The engraved numerals on the bezel are the colour of chamois, which is reflected in the three counters, all the printed elements and the luminous colour. The attached appliqués are rhodium-plated and luminous, as are the hour, minute and stopwatch second hands.

Even the place of origin of the watch is mentioned by name. The 'Sinn Frankfurt am Main' lettering thus adorns the glossy black dial with decorative sunburst to mark the anniversary. Both the crystal and the transparent back are made from high-quality sapphire crystal, enabling fascinating glimpses into the delicate work of the mechanical movement.

The 103 Classic 12 edition is waterproof and pressure-resistant up to 20 bar, resistant to low pressure and equipped with Ar-Dehumidifying Technology for enhanced functional reliability and freedom from fogging.

To mark the special occasion, the edge of the glass back features the limited-edition number as well as the engravings '1961-2021' and '60 Jahre'. The watch comes in a fine case with a dark green strap of wild boar leather and a cowhide strap with alligator embossing in black.

Technical details

Mechanical Movement

- SW 510
- Self-winding mechanism
- 27 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Anti-magnetic as per DIN 8309

Case

- Case made of stainless steel, polished
- Sapphire crystal in front, anti-reflective on both sides
- Transparent case back made of sapphire crystal, anti-reflective on the interior
- Case back screw-fastened
- Crown screwable
- Push-pieces screwable
