- Sapphire crystal glass in front
- Transparent case back made of sapphire crystal glass
- Appliqués, meticulously attached by hand
- Waterproof and pressure-resistant to 10 bar
- Low pressure resistant

Often it's the details that turn an extraordinary watch into something exceptional. Details such as sophisticated technical features. Or appealing design elements – such as those just waiting to be discovered in our 1736 St I 4N watch. For example, the stylishly arranged gold plated hands, the appliqués, meticulously attached by hand and the silver electroplated dial with sunburst decoration – an effective interplay, creating a highly exquisite and elegant feel.

This timelessly classic design, skilfully incorporating elements from previous styles and thus illustrating a sense of tradition, is reinforced by the slightly curved, high-quality sapphire crystal. Such details define and characterise the overall appearance of this magnificent watch.

Technical details
