Often it's details that turn an extraordinary watch into something exceptional. Details such as sophisticated technical features. Or appealing design elements, such as those just waiting to be discovered in the 1739 St I 4N F.A.Z. Most notably, the stylishly arranged rose gold hands, the appliqués, meticulously attached by hand and the deep blue, matte-silk dial – an interplay that creates a highly exquisite and elegant feel.

Measuring 39 mm in diameter, the 1739 St I 4N F.A.Z. skilfully incorporates selected elements from previous styles, illustrating a sense of tradition. This traditional feel is reinforced by the slightly curved, high-quality sapphire crystal. Such details define and characterise the overall appearance of this magnificent watch. The seamless quartz grey Alcantara strap and golden brown calfskin strap blend in perfectly with the overall design of the watch.

The 100-piece limited edition 1739 for the Frankfurter Allgemeine Zeitung is the result of a collaboration between two renowned and long-established Frankfurt-based companies. The winding rotor is engraved with the respective limited-edition number and the Clever Mind of the well-known F.A.Z. campaign.
