

256

The universal chronographs.

Page 1 / 2
May 2021

- Case made of stainless steel, bead-blasted
- Pilot's bezel
- Shock-resistance acrylic glass
- Pressure-resistant to 10 bar
- Low pressure resistant

Those who don't want to give up the advantages of our great chronographs but would like a smaller case will love the Model 256 series, which has a diameter of 38.5 mm. The driving force behind the 256 series is the proven Valjoux 7750 automatic movement. Pilots in particular appreciate the outer bezel, which can be rotated in both directions. It is anodized in black to ensure better contrast and is large enough for perfect readability. Its size enables a secure grip even when the user is wearing gloves.

Technical details

Mechanical Movement

- Valjoux 7750
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Shock resistant as per DIN ISO 1413
