434 St B

The stylish ladies' watch with [Q] Technology and blue dial.

- Classic, elegant stainless-steel case
- Electroplated blue dial, with sunburst decoration
- Shielding of the electromagnetic pulses emitted by the quartz movement
- Appliqués, meticulously attached by hand
- High-precision quartz movement, temperature-stabilised
- Sapphire crystal glass
- Water-resistant and pressure-resistant to 10 bar
- Resistant to low pressure

The extraordinary character – resulting from the combination of timeless aesthetics and the utmost in precision – of our 434 St B model is waiting to be explored.

The blue dial is an optical feature which we have finished with an additional sunburst decoration. This dial is set in an elegant stainless-steel case with crystal made of sapphire crystal glass.

The appliqués, meticulously attached by hand, are subtle in their elegance in showing the hours and give the impression of a traditional ladies' watch.

And this watch fulfils strict requirements in terms of technology: it is resistant to low pressure, water-resistant and can withstand pressures of up to 10 bar. It still features a high-precision, temperature-stabilised quartz movement. Additionally, we have minimised the electromagnetic radiation of the movement, as confirmed by the [Q] symbol on the dial.

Technical details

Quartz Movement

- ETA E64.101
- High-precision quartz movement, temperature-stabilised
- 8 bearing jewels
- Seconds stop function
- Anti-magnetic as per DIN 8309

Case

- Case made of stainless steel, polished
- Sapphire crystal glass in front, anti-reflective on both sides
- Case back screw-fastened, nickel-free
- Meet the technical requirements for water-resistance, as set out in standard DIN 8310
- Water-resistant and pressure-resistant to 10 bar
- Low pressure resistant

Functions

- Hours, minutes, seconds

SINN Technologies

- [Q] Technology

Dimensions and Weight

- Case diameter: 34 mm
- Band lug width: 18 mm
- Case thickness: 8 mm
- Weight without strap: 34 gramme
