The Frankfurt Financial District Alarm Watch combines practicality with an acoustic alarm function. This complication is facilitated by the use of the AS-5008 calibre.

The Frankfurt Financial District Alarm Watch is equipped with three time zones which are clearly visible at a glance. Using the crown at 10 o'clock, the interior bezel can be set for the third time zone with hour ratcheting. In addition to the hour, minute, second and date display, the second time zone is set using the crown at 2 o'clock; it can be read in the window from indices 5 to 7. Finally, the arrow hand marks the alarm function, which is set and wound using the third crown at 4 o'clock.

The rhodanised appliqué are likewise painted meticulously by hand with luminous paint and individually attached to the dial manually.
