

6100 White Gold REGULATEUR White Gold.

- Limited edition to 45 units
- Case made of 18-carat white gold
- Sinn caliber SZ04
- Screw balance
- Charcoal grey electroplated dial, UV resistant
- Sapphire crystal glass
- Transparent case back made of sapphire crystal glass
- Pressure-resistant to 10 bar (= 100 m water depth)
- Low pressure resistant

No other technical invention has influenced the development of mankind more than the watch. A world without the reliable synchronization of temporal processes is inconceivable today. As early as the Middle Ages, the efforts of the watchmakers were focused solely on measuring time accurately and perfecting their craft. The precision and esthetics of a mechanical watch still thrill us today. Its timeless principle has been ingeniously optimized and implemented in the 6100 REGULATEUR series by Sinn.

The 6100 White Gold model reflects the self-image and philosophy of the Sinn company down to the tiniest detail. As a valuable collectible, the model exists in a strictly limited series of only 45 timepieces. The elegant case is made of 18-carat white gold alloyed with palladium, and provides a striking contrast to the electroplated charcoal grey guilloché dial. The crystal and back are anti-reflective to ensure optimal readability and a clear view of the exquisitely decorated SZ04 movement. The impressive Sinn SZ04 movement provided the basis for the conversion to the Regulateur movement. The crown is sealed with the SINN D3-System. This beautiful timepiece comes with two black straps: one made of genuine alligator leather with a species protection certificate and buckle made of 18-carat white gold and the other made of calf leather. You'll also find spare spring bars, a strap-changing tool, an Eschenbach watchmaker's loupe and a cleaning cloth.

Technical details

Mechanical Movement

- SINN Movement SZ04
- Hand-wound movement
- 17 bearing jewels
- 18,000 semi-oscillations per hour
- Glucydur screw balance
- Triovis precision adjustment system
- Shock resistant as per DIN ISO 1413
- Anti-magnetic as per DIN 8309

Case

- Case made of 18-carat white gold, polished / satinized
- Sapphire crystal glass in front, anti-reflective on both sides
- Transparent case back made of sapphire crystal glass, anti-reflective on the interior
- Case back screw-fastened
- Meet the technical requirements for waterproofness, as set out in standard DIN 8310
- Pressure-resistant up to 10 bar (= 100 m water depth)
- Low pressure resistant

Functions

- Subsidiary hours, central minutes, subsidiary seconds

SINN Technologies

- Crown with D3-System

Dimensions and Weight

- Case diameter: 44 mm
- Band lug width: 22 mm
- Case thickness: 10.6 mm
- Weight without strap: 100 gramme

Dial and Hands

- Charcoal grey electroplated dial
- Appliqués meticulously attached by hand
- Appliqués and hands rhodinized

Warranty

- 2 years
