

6110 Classic 4N

Page 1 / 2
December 2022

- Case made of stainless steel, polished / satinized
- Second stop function for accurate time adjustment
- Hand-wound movement
- Glucydur screw balance
- Triovis precision adjustment system
- Guilloché, silver electroplated dial
- Sapphire crystal glass
- Transparent case back made of sapphire crystal glass
- Pressure-resistant to 10 bar (= 100 m water depth)
- Low pressure resistant

Perfection in design: The stylistically assured 6110 Classic series combines a long tradition of watchmaking with the very latest technology.

The sapphire crystal glass permits a clear view of the guilloché-engraved silver-plated dial, with each version providing its own individual accent. The hands are gold-plated – mounted in a highly-polished stainless steel case with satinised edges. The exclusivity of these watches is also underlined by the use of superior movement parts such as the Glucydur screw balance, the Triovis precision adjustment system and the Nivarox 1 balance spring. And watch connoisseurs will be especially pleased to discover that the transparent back is also made from sapphire crystal glass. This gives the best possible view of the dependable yet filigree manual winding mechanism, refined with Geneva stripes and blued screws.

Technical details

Mechanical Movement

- Unitas 6498-1
- Hand-wound movement
- 17 bearing jewels
- 18,000 semi-oscillations per hour
- Glucydur screw balance
- Triovis precision adjustment system
- Seconds stop function
- Shock resistant as per DIN ISO 1413
- Anti-magnetic as per DIN 8309
