

## 901

The Technical-Sporty Chronograph featuring TEGIMENT.

- Limited edition to 150 units
- Fine adjustment of the lugs for altering the bracelet length by 3 x 0.8 mm per side using a special mechanism built into the case
- Case made of stainless steel, polished / satinized
- Case made with TEGIMENT Technology and therefore especially scratch-resistant
- Sapphire crystal glass
- Nickel-free case back without TEGIMENT Technology
- Functionally reliable from -40 °C up to +80°C
- Pressure-resistant to 10 bar
- Low pressure resistant

The limited edition of 150 pieces chronograph 901 is ample proof of our expertise in the field of case-making. We have collaborated closely with SUG in Glashütte, which produces the technologically sophisticated cases for our company. What is special about this case is the ability to finely adjust the lugs, allowing users to extend or shorten the bracelet length. The mechanism is built into the case and permits the bracelet to be altered by up to 3 x 0.8 mm per lug side. This increases wearing comfort, as the bracelet length can then be adjusted flexibly as the occasion requires. From an engineering viewpoint, the solution involves a complex case design. This presented SUG with an unusual challenge in terms of design and production.

The polished and satinized stainless steel case is surface-hardened with TEGIMENT Technology, making it especially scratch-resistant. Temperature Resistance Technology ensures that the watch functions correctly within a temperature range of – 40 °C to + 80 °C.

## Technical details

### Mechanical Movement

- Valjoux 7750
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Shock resistant as per DIN ISO 1413
- Anti-magnetic as per DIN 8309

### Case

- Case made of stainless steel, polished
- Sapphire crystal glass in front, anti-reflective on both sides
- Case back screw-fastened, nickel-free
- Meet the technical requirements for waterproofness, as set out in standard DIN 8310
- Pressure-resistant up to 10 bar
- Low pressure resistant

### Functions

- Hours, minutes, subsidiary seconds
- Date display
- Chronograph

### SINN Technologies

- TEGIMENT Technology, therefore especially scratch-resistant
- Temperature resistance technology, therefore functionally reliable at temperatures from -40 °C up to +80°C
- The special mechanism built into the case allows the bracelet to be lengthened or shortened by up to three steps of 0.8 mm on each side

### Dimensions and Weight

- Case measurements: 38.4 x 36.8 mm
- Band lug width: Special
- Case thickness: 16,5 mm
- Weight without strap: 99 gramme

### Dial and Hands

- Black electroplated dial
- Appliqués coated with luminescent colour
- Hour and minute hand coated with luminescent colour
- Chronograph function indicators coated with daylight luminous paint

### Warranty

- 2 years
