

956

The Rally Chronograph.

- Case made of stainless steel, polished
- Double tachymeter scale around the dial includes both the range from 30 to 60 km/h as well as the high speed range from 60 to 500 km/h
- Power reserve indicator
- Sapphire crystal glass
- Transparent case back made of sapphire crystal glass
- Pressure-resistant to 10 bar (= 100 m water depth)
- Low pressure resistant

Precise, indestructible mechanics integrated in a timeless, aesthetic design – a common denominator that unites aficionados of classic cars with connoisseurs of fine watches. Our 956 series is a highly functional, durable chronograph with a look that accurately recalls the style of the traditional dashboards in classic cars.

All of the features of this watch series – from the functional details to the appearance – were designed with automotive concepts in mind. As in the world of automobiles, the Sinn 956 shows how long it can keep running: the additional integrated complication for the power reserve indicator is designed to look like a fuel gauge, of course. The double tachymeter scale around the dial includes both the range from 30 to 60 km / h which is so important for the classic car rallies, as well as the high-speed range from 60 to 500 km / h. For all its technological sophistication, the Sinn 956 also offers the reliable durability of traditional mechanical workmanship: it is shock-resistant and anti-magnetic, well-protected by a solid stainless steel case and scratch-resistance sapphire crystal glass against all the rigors of demanding use under tough conditions. Thus, even a drive in a roadster through a violent thunderstorm won't faze a SINN 956.

Technical details

Mechanical Movement

- Valjoux 7750
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Shock resistant as per DIN ISO 1413
- Anti-magnetic as per DIN 8309

Case

- Case made of stainless steel, polished
- Sapphire crystal glass in front, anti-reflective on both sides
- Transparent case back made of sapphire crystal glass, anti-reflective on the interior
- Case back screw-fastened
- Crown screwable
- Meet the technical requirements for waterproofness, as set out in standard DIN 8310
- Pressure-resistant up to 10 bar (= 100 m water depth)
- Low pressure resistant

Functions

- Hours, minutes, subsidiary seconds
- Date display
- Power reserve indicator
- Chronograph
- Tachymeter scale

Dimensions and Weight

- Case diameter: 41,5 mm
- Band lug width: 22 mm
- Case thickness: 15 mm
- Weight without strap: 92 gramme

Dial and Hands

- Matte black dial
- Numbers coated with luminescent colour
- Hour and minute hand coated with luminescent colour

Warranty

- 2 years
